Vehicles with a Delco TheftLock radio

Supersession Statement

This PI was superseded to update Recommendation/Instructions. Please discard PIC4696C.

Condition / Concern

Delco Theftlock radio is locked and customer does not know the unlock code

Recommendations / Instructions

General Motors is aware of the Delco Theftlock phone lines being turned off, and is seeking alternative solutions. Currently we are unable to support requests for unlocking these radios. The PI will be updated once a determination is made on whether we can continue to support unlocking these radios.
